

Krystian Kula

Geophysicist (MSc Energy) · Aberdeen, UK

kula@krystian.ch

Open to Aberdeen, London & Europe

Profile

Geophysics MSc (Energy pathway) student at the University of Aberdeen, building on a geology degree from the same university. My coursework covers formation evaluation and petrophysics, borehole imaging and borehole seismic, and I bring hands-on research experience in GIS mapping and automated image analysis.

I'm a pragmatic, careful problem-solver who works well independently and in teams, communicates clearly in writing and in person, and picks up new tools quickly. Bilingual in English and Polish.

Education

MSc Geophysics (Energy) — University of Aberdeen

Sep 2026 — Sep 2027

- Formation evaluation & petrophysics: well-log interpretation (neutron, NMR), water saturation (Archie), volumetrics (STOIIP).
- Borehole seismic (VSP) and borehole imaging.

BSc Geology — University of Aberdeen

2020 — Nov 2025

- Wrote and delivered scientific reports to deadlines; presented findings to informed audiences.
- Collaborated on team projects, owning allocated tasks and managing my own time.

A-Levels — Sir William Borlase Grammar School

Geology A*, English B, Chemistry C

Research

William Whitehall Studentship — University of Aberdeen Jul — Sep 2023

- Ran an independent research project, setting my own goals with minimal supervision.
- Produced academic reports and original figures and maps using GIS software.
- Adopted workflows suggested by fellow researchers and knew when and whom to ask for guidance.

QUADRAT Internship — University of Aberdeen Jun — Jul 2022

- Captured scientific images with a mirrorless camera and microscope photography software.
- Automated measurement of plant-debris aspect ratios from the image data.
- Worked to lab safety procedures with gases, fume cupboards and furnaces.
- Supported a PhD project through detailed academic note-taking.

Skills

Geoscience
Well-log & petrophysical analysis, borehole seismic (VSP), borehole imaging, geological mapping, scientific reporting

Data & software
Python, GIS, Excel (advanced), SQL (learning), MS Office, technical writing

Working
Lab and heavy-machinery safety, client & contractor liaison, data-led decisions, clear communication

Languages
English and Polish (bilingual)

Experience

Colleague & Baker — Tesco Feb 2024 — present

- Analysed waste data to adjust production volumes, cutting waste while meeting demand.
- Managed stock: ordering, counts and warehouse organisation.
- Deployed staff in response to customer flow and handled cash operations accurately.
- Resolved customer complaints calmly, setting clear expectations.

Office Administrator — POLBooks Sep 2020 — Dec 2023

- Prioritised purchase orders, quotes and invoices to meet customer and business deadlines.
- Kept digital filing and team calendars organised and conflict-free.

Machine Operator — Self-employed Summers 2019 – 2021

- Operated heavy machinery safely outdoors, staying focused through setbacks.
- Delivered tree planting, pitch levelling and drainage projects to client specs and deadlines.
- Worked alongside outside contractors on long-term projects through seasonal challenges.

Office Administrator — S&F International Summers 2018 – 2020

- First point of contact between oil-industry clients, suppliers and executives.
- Helped move the office to paperless, identifying technology to streamline workflows.

Activities

- Chief Scout's Gold Award
- Public speaking certificate (Level 3)
- Two BTECs in technical theatre (lighting & sound, stage management); a year with Beaconsfield Young Theatre Company
- Air-rifle shooting proficiency; computer building
